This summary should be read as an introduction to the Prospectus. Any decision to invest in the Ordinary Shares should be based on consideration of the prospectus as a whole by the investor. Where a claim relating to the information contained in a prospectus is brought before a court, the plaintiff investor might, under the national legislation of the EEA states, have to bear the costs of translating the prospectus before the legal proceedings are initiated. To date, Hargreave Hale AIM VCT1 has paid dividends of 17p per Ordinary Share to those who invested through the original offer in 2004/5. Those who invested through the 2005/6 C Share issue have received dividend distributions equivalent to 6.9p per share. Shareholders in Hargreave Hale AIM VCT2 have received dividends totalling 12p per Ordinary Share.

Reasons for the Offer

The raising of further funds by way of the Offer is intended to create the following benefits:

- the fixed overheads of the Companies will be attributable to a larger investment portfolio which may reduce the total expense ratio, depending on the amount of funds raised under the Offer;
- existing shareholders' interests will not be diluted as the shares will be issued at 5 per cent. above the net asset value per Ordinary Share to cover the costs of the Offer and existing shareholders will continue to be entitled to all of the benefits which may arise from the success of such funds, including any dividends which the Directors may decide to pay; and

- existing shareholders and new Investors will have the opportunity to place further funds under the management of a proven and successful team.

Investors' subscription monies will be allocated between Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 as prescribed by the Investors in their application form submitted.

Investment Policy

(A) Investment Objectives

The Companies' objectives are:

- to invest in a diversified portfolio of small UK based companies on a high risk, medium term capital growth basis, primarily being companies which are traded on AIM and which have the opportunity for significant value appreciation;
- to invest in smaller companies which may not be readily accessible to private individuals and which also tend to be more risky;
- to maximise distributions to shareholders from capital gains and income generated from the Companies' funds; and
- targeted investment in equities which are non-qualifying investments on an opportunistic basis to boost the performance of the Companies' funds.

(B) Asset Allocation

In order to achieve these objectives, “**Qualifying Investments**” (being investments which comprise qualifying holdings for a venture capital trust as defined in Chapter 4 Part 6 of the Income Tax Act 2007) will be made in AIM companies, but the Investment Manager will also consider PLUS traded companies and private companies that meet the investment criteria summarised below. The Investment Manager will follow a stock specific, rather than sector specific, investment approach. Individual Qualifying Investments are likely to range from £100,000 to £1 million. .

Investments in AIM traded Qualifying Investments will be in new shares issued by the investee company at the time of its flotation or in new shares issued by existing AIM companies (with a preference for secondary issues of existing AIM companies as they are likely to have an established track record and these issues are often priced at an attractive discount to market price).

Initially, whilst suitable Qualifying Investments are identified the net proceeds of any share offer will be invested in gilts, other fixed interest securities and bank deposits that are readily realisable, and targeted investment in equities which are Non-Qualifying Investments on an opportunistic basis to boost the performance of the Companies' funds. Such investments will be realised as suitable Qualifying Investments are identified and made. Whilst under VCT legislation the Companies must have 70 per cent. of its funds invested in Qualifying Investments within 3 years, it is intended to invest up to 80 per cent. Accordingly, the Companies' maximum exposure to such investments will be 80 per cent. The remaining funds will be retained in “**Non-Qualifying Investments**” (being investments made by the Companies which do not qualify as Qualifying Investments), such as gilts, other fixed interest securities and bank deposits and targeted investment in equities which are Non-Qualifying Investments on an opportunistic basis to boost

the performance of the Companies' funds in order to allow for follow on investments, to fund the annual running costs of the Companies and to reduce the risk of the overall portfolio of each Company. The Investment Manager will be flexible in its approach, adapting the position of the Companies' funds to reflect market conditions.

(C) Investment Strategy

The key selection criteria to be used by the Investment Manager in deciding which Qualifying Investments to make will, among others, include:

- an experienced and proven management team;
- a credible, sound business plan; and
- strong financial controls.

(D) Borrowings

It is not the Companies' intention to have any borrowings. The Companies do, however, have the ability to borrow a maximum amount up to 15 per cent. of the "Adjusted Capital and Reserves" amount (as such term is defined in the Articles of Association of each of the Companies), which is effectively the aggregate of the nominal capital of the Companies issued and paid up and the amount standing to the credit of the consolidated reserves of the Companies, less specified adjustments, exclusions and deductions. There are no plans to utilise this ability at the current time.

(E) Risk Diversification

The design of the structure of the Companies' funds, and their investment strategies, has been developed to reduce risk as much as possible. The key risk management features include:

- *Broad portfolio of companies* – The Companies will invest in a broad portfolio of different companies, thereby reducing the potential impact of poor performance by any individual investment;
- *Significant proportion of investments in gilts, other fixed interest securities and bank deposits* – A significant proportion of funds will be invested by the Investment Manager in this way. The objective is to keep approximately 20 per cent. of the Companies funds in such investments, thereby reducing the overall risk profile of the portfolio of the Companies;
- *Close monitoring of investments* – The Investment Manager will closely monitor the performance of all the investments made by the Companies in order to identify any problems and to enable it to take swift corrective action; and
- *Co-investment* – The Investment Manager manages other funds that can invest in the same companies as the Companies. In appropriate circumstances, therefore, the Companies will invest alongside such other funds. In such cases, the Investment Manager will take into account such factors as the risk profile and investment strategy of the participating funds when deciding how much each fund will invest. If situations arise where the Companies propose to invest in the same companies as other funds managed by the Investment Manager, but at a different time or on different terms, such proposed investment must be approved by the Board members of

the Companies who are independent of the Investment Manager. In the case of private companies, this co-investment will enable the funds of the Companies to be invested in larger and more mature businesses than they might otherwise be able to access, thereby reducing the risk to the Companies' portfolios.

The Directors and the Investment Manager

The Boards of the Companies both comprise three Directors, two of whom are independent of the Investment Manager. The Directors operate in a non-executive capacity and are responsible for overseeing the investment strategy of the Companies. The Boards have wide experience of investment in both smaller growing companies and larger quoted companies. The Investment Manager of Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 is Hargreave Hale Limited, which is a specialist small companies fund manager with approximately £825 million under management (*source: Hargreave Hale*). The team of six, led by the Chief Executive Giles Hargreave, has many years of experience in investing in small companies, both on the Official List and on AIM, including more than 11 years as investment manager to a Special Situations Fund, in which period (from 1 July 1998 to 28 February 2010) the fund has returned capital growth of 664 per cent. (*source: Hargreave Hale*).

Giles Hargreave has committed to invest a total of £50,000 in Hargreave Hale AIM VCT2 under the Offer.

The Offer

- The Offer is for up to £7,000,000 of Ordinary Shares in Hargreave Hale AIM VCT1 and £3,000,000 of Ordinary Shares in Hargreave Hale AIM VCT2 at an offer price determined by reference to the Pricing Formula. The offer price determined under this formula represents a 5 per cent. increase above the latest published unaudited NAV per Ordinary Share of the relevant Company. Applicants' subscriptions will be divided between the Companies, and between 2009/10 and 2010/11 tax years, as indicated by the applicant on the application form.
- In the event that applications are received for Ordinary Shares in excess of the Maximum Subscription under the Offer, the Directors reserve the right to exercise their discretion in the allocation of successful applications, although allocation will usually be on a first come first served basis.
- The minimum subscription per investor is £3,000 in respect of the Offer.
- The Offer will open at 10.00 am on 20 March 2010. The first allotment under the Offer in respect of the 2009/10 tax year is expected to be on or before 1 April 2010. Thereafter, the Directors reserve the right to allot Ordinary Shares at any time whilst the Offer remains open. All allotments will be made at the relevant price per Ordinary Share calculated by reference to the Pricing Formula..
- The closing date for the Offer in respect of the 2009/2010 tax year will be at 3.00 p.m. on 1 April 2010, and in respect of the 2010/11 Offer until 31 July 2010, unless extended (but to no later than 18 March 2011).
- Application will be made for the Ordinary Shares to be issued pursuant to the Offer to be admitted to the Official List of the UK Listing Authority and to be traded on the London Stock Exchange's main market for

listed securities.

- Cheques may be post-dated to 6 April 2010 for applications in respect of the 2010/11 Offer.

Significant Tax Benefits for Investors

Individual investors in the Companies pursuant to the Offer are entitled to the following VCT tax benefits:

- up-front 30 per cent. income tax relief (such that an investment of £10,000 will effectively cost an investor £7,000). The maximum investment which can be made in order to qualify for the personal tax reliefs available from a venture capital trust is currently £200,000 per person per tax year;
- tax free dividends; and
- gains on disposal of Ordinary Shares free of capital gains tax.

RISK FACTORS

Although the significant tax benefits available to Investors in Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 reduce the risk of the investment, prospective investors should consider carefully the following risk factors in addition to the other information presented in this document. If any of the risks described below were to occur, it could have a material effect on each of the Company's business, financial condition or results of operations. The risks and uncertainties described below are not the only ones the Companies, the Boards or shareholders will face. Additional risks not currently known to the Companies or the Boards, or that the Companies or the Boards currently believe are not material, may also adversely affect each of the Company's business, financial condition or results of operations. The value of the Ordinary Shares could decline due to any of the risk factors described below and prospective investors could lose part or all of their investment. Prospective investors are recommended to consult an independent financial adviser authorised under the FSMA before deciding whether to apply for Ordinary Shares under the terms of the Offer.

- Prospective investors should be aware that the value of Ordinary Shares, and the income from them, may go down as well as up. An investor may not get back the amount originally invested. .
- Having regard to the Companies' investment objectives and the tax reliefs available, Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 should be considered as a long-term investment and may, therefore, not be suitable for all investors.
- If a Shareholder disposes of his Ordinary Shares within five years of issue he will be subject to clawback by HM Revenue & Customs of some or all of the 30 per cent. income tax relief originally claimed.
- Investing in venture capital trusts such as Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 (which in turn are investing in smaller companies) carries particular risks, and these material risks are set out below.
- Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 will invest in small companies, some of which will be unquoted. Such companies generally have a higher risk profile than larger "blue chip" companies and may not produce the hoped for returns. Since the value of a VCT depends on the performance of the underlying assets, the value of the investment and the dividend stream can rise and fall. This could affect an investor's ability to realise his or her initial investment.
- Although Ordinary Shares of the Companies are already listed on the Official List and are admitted to trading on the London Stock Exchange, it is possible that there may not be a liquid market in the Ordinary Shares and Shareholders may have difficulty in selling them. Therefore, the price at which the Ordinary Shares are traded may not reflect the Net Asset Value of the Companies.
- The past performance of the Investment Manager or the Companies is no indication of its future performance.

- There can be no guarantees that the Companies will meet their objectives or that suitable investment opportunities will be identified.
- An investment in a Venture Capital Trust may not be suitable for all Investors. If Investors have any doubts, they should seek advice from their independent financial adviser.
- VCTs usually trade at a discount to their net asset value. Investors could get back less than the full amount they invested.
- Investment in unquoted companies can offer good investment returns, but, by its nature, is uncertain and consequently involves a higher degree of risk than investment in a quoted portfolio.
- Investments made may be in companies whose shares are not readily marketable and, therefore, may be difficult to realise. PLUS-quoted (formerly OFEX) is not regulated by either the UK Listing Authority or the London Stock Exchange. The fact that a share is traded on PLUS-quoted, or on AIM, does not guarantee its liquidity, and an investment in such shares (in particular on PLUS-quoted) may be difficult to realise. The value of the shares in PLUS or AIM-quoted companies may go down as well as up. There may also be constraints imposed on the realisation of investments to maintain the VCT tax status of the Companies.
- Whilst it is the intention of the Directors that the Companies will be managed so as to qualify as a VCT, there can be no guarantee that it will qualify or that such status will be maintained. A failure to meet the qualifying requirements could result in the Companies losing the tax reliefs previously obtained, resulting in adverse tax consequences for Investors, including a requirement to repay the 30 per cent. income tax relief.
- It is possible for Investors to lose their tax reliefs by themselves taking or not taking certain steps, and Investors are advised to take their own independent financial advice on the tax aspects of their investment.
- The Companies will invest in companies with gross assets of not more than £7 million prior to investment (£15 million for funds raised before 6 April 2006). This may limit the number of investment opportunities available to the Companies. Such companies generally have a higher risk profile than larger "blue chip" companies.
- Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 are required under their Articles of Association to put an ordinary resolution to their shareholders (at their annual general meetings in 2011 and 2013 respectively) for approval to continue as a Venture Capital Trust for a further five year period. If, in the unlikely event that such a resolution is not passed, the Directors of the respective company are required to draw up proposals for the reorganisation, reconstruction or voluntary winding up of that company. If such a resolution is not passed, and the relevant company is subject to a reorganisation, reconstruction or a voluntary winding up, this may effect the tax reliefs claimed by Investors in relation to their Ordinary Shares (including income tax relief claimed on their original subscription).
- Changes in legislation concerning VCTs in general, and Qualifying Investments and qualifying trades in particular, may restrict or adversely affect the ability of the Companies to meet their objectives and/or reduce the level of returns which would otherwise have been achievable.

- A failure to meet and maintain the qualifying requirements for a VCT could result in:
 - Investors being required to repay the 30 per cent. income tax relief received on subscription for Ordinary Shares;
 - loss of income tax relief on dividends paid (or subsequently payable) by the Companies;
 - loss of tax relief previously obtained in relation to corporation tax on capital gains made by the Companies;
 - a liability to capital gains tax on the disposal of Ordinary Shares; and
 - the loss of the Companies' listings on the Official List.
- The levels and bases of, and relief from, taxation are subject to change. Such changes could be retrospective. Those shown in this document are based upon current legislation, practice and interpretation. The tax reliefs referred to in this document are those currently available for the 2009/10 tax year and their value depends on the individual circumstances of investors. The tax reliefs that may be available, if any, for the 2010/11 tax year are not known at the date of this document. Investors should seek their own tax advice appropriate to their individual circumstances.
- Although the Ordinary Shares will be listed on the Official List and admitted to trading on the London Stock Exchange, shares in VCTs are inherently illiquid and there may be a limited market in the shares primarily because the initial tax relief is only available to those subscribing for newly issued shares and investors may, therefore, have difficulty in selling them. The Directors of each Company intend, subject to liquidity, the rules of the UK Listing Authority, the Acts and VCT regulations, to pursue a policy of purchasing Ordinary Shares in the market in order to facilitate liquidity for Ordinary Shareholders and to manage the level of the discount to NAV at which the Ordinary Shares may be trading. The Companies will endeavour to facilitate such sales at a price which represents a discount of no more than 10 per cent. to the last published NAV of the Company.
- The Companies' ability to obtain maximum value from its investments (for example, through sale) may be limited by the requirements imposed in order to maintain the tax status of the Companies.

The Ordinary Share capital of each of the Companies in issue immediately following the Offer, assuming that the Maximum Subscription is achieved and all the allotments were made on the basis of the NAV per Ordinary Share for the relevant Company as at 12 March 2010 (as announced on 16 March 2010), will be as follows:

	Issued and to be issued fully paid	
	No. of Ordinary Shares	Nominal Value
Hargreave Hale AIM VCT1	38,751,583*	£387,515.83

*Including 2,711,134 Ordinary Shares held in treasury

PART I

ABOUT HARGREAVE HALE AIM VCT1 AND HARGREAVE HALE AIM VCT2

Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 are existing venture capital trusts. Both funds share a common objective, namely to make tax-free dividend distributions from capital gains and income generated through investment in a diversified portfolio of small UK based VCT qualifying companies. The Investment Manager will seek to enhance this return through targeted non-qualifying investments in equities and fixed income where appropriate

In both cases, the Investment Manager has already built an existing and diversified portfolio of qualifying equity investments. Both funds met the HMRC guidelines for Venture Capital Trusts by the required date and have continued to do so since. The existing portfolios have a strong bias towards companies with a listing on AIM. However, there are a limited number of investments in PLUS-quoted (formerly OFEX) and private companies.

In the case of Hargreave Hale AIM VCT1, the Directors are of the opinion that, due to its size and the substantial portfolio of Qualifying Investments, bearing in mind that additional Qualifying Investments required over the next 3 years can be funded out of the net proceeds received from its share issues in 2004/5 and 2005/6 (that are yet to be invested in Qualifying Investments), the Fund can raise £7m of new capital. Because the current VCT legislation is more restrictive, this should substantially reduce the structural investment risk.

Hargreave Hale AIM VCT2 is a much smaller fund with a lower level of Qualifying Investments. There is less scope to absorb additional funds and hence the offer is limited to £3m. It is the Directors' opinion that a £3m fundraising would bring about a material reduction in the Company's total expense ratio, to the benefit of existing Shareholders, without introducing an unacceptable level of investment risk. Again, the Directors are of the opinion that additional Qualifying Investments can be funded from capital originally raised in 2006/7, which has less restrictive requirements than the VCT rules currently in place.

Originally, the Companies were named Keydata AIM VCT plc and Keydata AIM VCT 2 plc, but following the administration of Keydata Investment Services Limited in June 2009, who dealt with the day to day administration of the Companies' affairs and their replacement with Hargreave Hale Limited, their names were changed to Hargreave Hale AIM VCT 1 plc and Hargreave Hale AIM VCT 2 plc in October 2009.

INVESTMENT STRATEGY

The Investment Manager will continue to follow a stock specific investment approach with target companies required to meet the investment criteria summarised below. Both Companies follow a similar strategy for the Non- Qualifying Investments, although the Hargreave Hale AIM VCT1 did not adopt this until May 2009. The Hargreave Hale AIM VCT2 followed this strategy from launch in 2007. Both Companies now take equity exposure to Non Qualifying Investments. These investments can cover a much broader range of companies, with different strategies, models and

maturities to those typically found in the Qualifying Investment portfolio. Liquidity is an important theme within this Non- Qualifying Investment element of the portfolio and the Investment Manager will be careful to manage the exposure and remain flexible in its approach, adapting the Funds' profile to reflect market conditions.

Investments in AIM-listed Qualifying Investments will be in newly issued shares, issued by a company on listing or as a secondary fund raising. Individual Qualifying Investments are likely to range in size from £100,000 to £1,000,000. The Investment Manager has sought to limit stock specific risk in each Fund through diversification. In this regard, the Investment Manager's team of 6 managers and advisers is a considerable asset, allowing it to screen, meet and follow a very large number of companies.

TAX BENEFITS FOR INVESTORS

Individual investors subscribing for new shares in a VCT are entitled to the following benefits:

- up-front income tax relief to the investor of **30 per cent.** is available in the tax year 2009/2010 (provided that the shares are held for at least five years);
- dividends paid to investors are free of income tax; and
- capital gains made by investors on a disposal of shares in a VCT are tax-free.

These reliefs are available for subscriptions in shares of venture capital trusts up to in aggregate **£200,000** per tax year.

The following shows the effect of the increased tax reliefs for an individual who subscribes £10,000 in Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2:

Initial Investment	£10,000
Less income tax relief	£3,000
Effective cost to Investor	£7,000

Set out below is a table illustrating the returns to new shareholders assuming annual dividends of 5p per Ordinary Share are paid (and a gross equivalent yield on the basis of a taxpayer who pays 40% and a taxpayer who pays the new higher rate of 50% from 6 April 2010). Investors should note that the level of dividends is not guaranteed.

Illustrative yield per Ordinary Share (based on an illustrative dividend of 5p per Ordinary Share issued pursuant to the Offer)			
Before 30% income tax relief			
Offer price	Illustrative annual dividend	Tax-free yield	Gross equivalent yield ²⁺³
100.0p	5.0p	5.0% p.a.	6.67% p.a. ² 7.7% p.a. ³
After 30% income tax relief

70.0p	5.0p	7.1% p.a.	9.47% p.a. ² 11.0% p.a. ³

- 1 The returns listed after 30 per cent. income tax relief are based on an offer price of 100p multiplied by 70 per cent., to reflect initial income tax relief of 30 per cent. Investors should note that they will be required to pay the full offer price and claim the income tax relief separately.

- 2 The gross equivalent yield from UK dividends to a 40 per cent. taxpayer (reflecting the 32.5 per cent. income tax charge to a 40 per cent. taxpayer on taxable gross non-VCT dividends including the notional 10 per cent. tax credit).
- 3 The gross equivalent yield from UK dividends to a 50 per cent. taxpayer (reflecting the 42.5 per cent. income tax charge to a 50 per cent. taxpayer on taxable gross non-VCT dividends including the notional 10 per cent. tax credit).

Investors should obtain their own independent financial advice on their eligibility for tax relief. A general guide to the conditions to be met in order for the tax reliefs to be available is given in Part II of this document.

THE INVESTMENT OPPORTUNITY

Introduction to the Offer

Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 are existing Venture Capital Trusts that seek to distribute tax free dividends to shareholders as a result of capital gains and income made through the investment in a diversified portfolio of small UK based VCT qualifying companies. Both funds have a flexible investment strategy that allows the Investment Manager to make appropriate Non-Qualifying Investments, both equity and fixed income, in an attempt to generate enhanced returns.

The Hargreave Hale AIM VCT1 Offer is to raise up to £7 million gross through the issue of new Ordinary Shares, whilst the Hargreave Hale AIM VCT 2 Offer seeks to raise up to £3million gross through the issue of new Ordinary Shares. The 2009/10 Offer will remain open until 3.00 pm on 1 April 2010 and the 2010/11 Offer until 3.00 pm on 31 July 2010, unless extended (but to no later than 18 March 2011), enabling Investors to subscribe in either or both of the 2009/10 tax year and 2010/11 tax year.

The Investment Opportunity

The raising of further funds by way of the Offer is intended to create the following benefits:

- the fixed overheads of the Companies will be attributable to a larger investment portfolio which may reduce the total expense ratio, depending on the amount of funds raised under the Offer;
- existing shareholders' interests will not be diluted as the shares will be issued at 5 per cent. above the net asset value per Ordinary Share to cover the costs of the Offer and existing shareholders will continue to be entitled to all of the benefits which may arise from the success of such Funds, including any dividends which the Directors may decide to pay; and
- existing shareholders and new Investors will have the opportunity to place further funds under the management of a proven and successful team. The net proceeds of the Offer will be invested in accordance with the Companies' published investment policy.

Investors' subscription monies will be allocated between Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 as prescribed by the Investors in their application form submitted. The Directors believe that the fundraisings are in the interest of both existing and new shareholders. Existing shareholders will benefit from a reduction in the expense ratio, a strengthened balance sheet and an enlarged allocation of capital for Non- Qualifying Investments. New shareholders will be able to invest into a mature portfolio of VCT Qualifying Investments run by an experienced and proven investment management team whilst also benefiting from VCT tax reliefs on investment in the Companies under the Offer. Both Companies have established good track records of paying regular dividends. Funds raised under the Offer will be invested in accordance with the Companies' published investment policies.

Although the investment criteria that apply to capital raised in 2009/10 and 2010/2011 are onerous, the Directors and Investment Manager have worked closely with their advisers to identify ways in which this structural investment risk can be mitigated in part by subtle changes in the structure and management of the underlying portfolios. In both cases, the Investment Manager will be able to invest capital raised in earlier years for investment into VCT Qualifying Investments, reducing and possibly entirely negating the effects of the more onerous VCT tax rules in respect of VCT qualifying investee companies currently in place. This is seen as a major advantage that is only available with an investment into a mature Venture Capital Trust. These changes will not require a change to the Companies' investment strategies.

Although the Companies operate in a difficult environment, the Board see this as an opportunity as well as risk. Bank funding for small companies remains tight or, where available, very expensive and will continue to create opportunities that may have not previously arisen; valuations remain low in many cases and the pool of capital available for investment has greatly reduced, and competition for the best opportunities is less fierce. All of these factors weigh in favour of the Companies.

INVESTMENT POLICY

Investment Policy

(A) Investment Objectives

The Companies' objectives are:

- to invest in a diversified portfolio of small UK based companies on a high risk, medium term capital growth basis, primarily being companies which are traded on AIM and which have the opportunity for significant value appreciation;
- to invest in smaller companies which may not be readily accessible to private individuals and which also tend to be more risky;
- to maximise distributions to shareholders from capital gains and income generated from the Companies' funds; and
- targeted investment in equities which are non-qualifying investments on an opportunistic basis to boost the performance of the Companies' funds.

(B) Asset Allocation

In order to achieve these objectives, “**Qualifying Investments**” (being investments which comprise qualifying holdings for a venture capital trust as defined in Chapter 4 Part 6 of the Income Tax Act 2007) will be made in AIM companies, but the Investment Manager will also consider PLUS traded companies and private companies that meet the investment criteria summarised below. The Investment Manager will follow a stock specific, rather than sector specific, investment approach. Individual Qualifying Investments are likely to range from £100,000 to £1 million. Investments in AIM traded Qualifying Investments will be in new shares issued by the investee company at the time of its flotation or in new shares issued by existing AIM companies (with a preference for secondary issues of existing AIM companies as they are likely to have an established track record and these issues are often priced at an attractive discount to market price).

Initially, whilst suitable Qualifying Investments are identified the net proceeds of any share offer will be invested in gilts, other fixed interest securities and bank deposits that are readily realisable, and targeted investment in equities which are Non-Qualifying Investments on an opportunistic basis to boost the performance of the Companies' funds. Such investments will be realised as suitable Qualifying Investments are identified and made. Whilst under VCT legislation the Companies must have 70 per cent. of its funds invested in Qualifying Investments within 3 years, it is intended to invest up to 80 per cent. Accordingly, the Companies' maximum exposure to such investments will be 80 per cent. The remaining funds will be retained in “**Non-Qualifying Investments**” (being investments made by the Companies which do not qualify as Qualifying Investments), such as gilts, other fixed interest securities and bank deposits and targeted investment in equities which are Non-Qualifying Investments on an opportunistic basis to boost the performance of the Companies' funds in order to allow for follow on investments, to fund the annual running costs of the Companies and to reduce the risk of the overall portfolio of each Company. The Investment Manager will be flexible in its approach, adapting the position of the Companies' funds to reflect market conditions.

(C) Investment Strategy

The key selection criteria to be used by the Investment Manager in deciding which Qualifying Investments to make will, among others, include:

- an experienced and proven management team;
- a credible, sound business plan; and
- strong financial controls.

(D) Borrowings

It is not the Companies' intention to have any borrowings. The Companies do, however, have the ability to borrow a maximum amount up to 15 per cent. of the "Adjusted Capital and Reserves" amount (as such term is defined in the Articles of Association of each of the Companies), which is effectively the aggregate of the nominal capital of the Companies issued and paid up and the amount standing to the credit of the consolidated reserves of the Companies, less specified adjustments, exclusions and deductions. There are no plans to utilise this ability at the current time.

(E) Risk Diversification

The design of the structure of the Companies' funds, and their investment strategies, has been developed to reduce risk as much as possible. The key risk management features include:

- *Broad portfolio of companies* – The Companies will invest in a broad portfolio of different companies, thereby reducing the potential impact of poor performance by any individual investment;
- *Significant proportion of investments in gilts, other fixed interest securities and bank deposits* – A significant proportion of funds will be invested by the Investment Manager in this way. The objective is to keep approximately 20 per cent. of the Companies funds in such investments, thereby reducing the overall risk profile of the portfolio of the Companies;
- *Close monitoring of investments* – The Investment Manager will closely monitor the performance of all the investments made by the Companies in order to identify any problems and to enable it to take swift corrective action; and
- *Co-investment* – The Investment Manager manages other funds that can invest in the same companies as the Companies. In appropriate circumstances, therefore, the Companies will invest alongside such other funds. In such cases, the Investment Manager will take into account such factors as the risk profile and investment strategy of the participating funds when deciding how much each fund will invest. If situations arise where the Companies propose to invest in the same companies as other funds managed by the Investment Manager, but at a different time or on different terms, such proposed investment must be approved by the Board members of the Companies who are independent of the Investment Manager. In the case of private companies, this co-investment will enable the funds of the Companies to be invested in larger and more mature businesses than they might otherwise be able to access, thereby reducing the risk to the Companies' portfolios.

Significant Tax Benefits for Investors

Individual investors in the Companies pursuant to the Offer are entitled to the following VCT tax benefits:

- up-front 30 per cent. income tax relief such that an investment of £10,000 will effectively cost an investor £7,000. The maximum investment which can be made in order to qualify for the personal tax reliefs available from a venture capital trust is currently £200,000 per person per tax year;;
- tax free dividends; and
- gains on disposal of Ordinary Shares free of capital gains tax

The Directors and the Investment Manager

The Boards of the Companies both comprise three Directors, two of whom are independent of the Investment Manager. The Directors operate in a non-executive capacity and are responsible for overseeing the investment strategy of the Companies. The Boards have wide experience of investment in both smaller growing companies and larger quoted companies. The Investment Manager of Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 is Hargreave Hale Limited, which is a specialist small companies fund manager with approximately £825 million under management (*source: Hargreave Hale*). The team of six, led by the Chief Executive Giles Hargreave, has many years of experience in investing in small companies, both on the Official List and on AIM, including more than 11 years as investment manager to a Special Situations Fund, in which period (from 1 July 1998 to 28 February 2010) the fund has returned capital growth of 664 per cent. (*source: Hargreave Hale*).

Deal Flow

The Investment Manager has many years' experience of investing in AIM and PLUS-quoted (formerly OFEX) companies. This has enabled the Investment Manager to establish a good network of contacts, including other fund managers, corporate brokers and professional advisers, which should ensure a good deal flow. The investment team has regular meetings, typically 15 per week, with small companies, a number of which would be suitable for investment by the Funds. These relationships, along with the ability to co-invest alongside the other funds managed by the Investment Manager, should increase the quality and quantity of the investment pipeline.

The Companies will invest primarily in companies trading on AIM, a market associated with young and growing companies.

Co-Investment Policy

The Investment Manager manages other funds that can invest in the same companies as Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2, including a Special Situations Fund and a Micro Cap Fund. In appropriate circumstances, therefore, the Companies will invest alongside other funds managed by the Investment Manager. When contemplating a co-investment, the Investment Manager will first consider factors such as the risk profiles and investment strategies of the participating funds, the size of the fund raising and anticipated allocations when deciding on how much each fund will subscribe for. Any scaling back of applications made by the Investment Manager for shares in investee companies, on behalf of the different funds it manages, will be on a pro rata basis to the amount originally requested for each fund.

Where the Companies intend to invest in the same companies as other funds managed by the Investment Manager, any such investment must first be approved by the Directors of the Board, who are independent of the Investment Manager, unless the investment is made either at the same time and on the same terms, or in accordance with a pre-existing agreement between the Companies and the Investment Manager.

Post-Investment Management

The Investment Manager will monitor each investment closely and will expect to meet with the management of investee companies at least twice a year.

As the values of underlying investments increase, the Investment Manager will monitor opportunities for the Funds to realise a proportion of the capital gain, and to make tax free distributions to shareholders.

Any underperforming investments may be disposed of if the Investment Manager believes that there is unlikely to be any reasonable capital appreciation in the short to medium term.

The Non-Qualifying Investments Portfolio

The Investment Manager will make targeted investments in equities which are Non-Qualifying Investments on an opportunistic basis to boost the Fund's performance. The Investment Manager will be flexible in its approach, adapting the Funds' position to reflect market conditions.

The Non-Qualifying Investment portfolio will also include gilts, other fixed interest securities and bank deposits.

Valuation Policy

Investments in AIM and PLUS-quoted traded shares will be valued at the prevailing bid price.

All other investments will be valued in accordance with BVCA guidelines. A brief summary of the BVCA guidelines is set out below.

Investments should be reported at fair value where this can be reliably determined by the Board on the recommendation of the Investment Manager.

In estimating fair value for an investment, the methodology applied must be appropriate to the nature, facts and circumstances of the investment and its materiality based on reasonable assumptions and estimates. Such methodology, including earnings multiple, cost, cost less a provision for net assets, should be applied consistently.

If fair value cannot be reliably measured, the carrying value at the previous reporting date will be used unless there is evidence of impairment, in which case the value will be reduced to reflect the estimated extent of the impairment.

Management of Uninvested Funds

The Companies' funds will be put on deposit or invested in short-term fixed income securities until suitable investment opportunities are found. Such uninvested funds will be managed by the Investment Manager and are usually invested in UK Treasury bills and loan stock.

DIVIDEND POLICY AND POTENTIAL FOR REALISATION

Generally, a VCT must distribute by way of dividend such amount as to ensure that it retains not more than 15 per cent. of its income from shares and securities. The Directors aim to maximise tax free distributions to shareholders by way of dividends paid out of income received from investments and capital gains received following successful realisations.

Shareholders who wish to have dividends paid directly into a bank account, rather than by cheque to their registered address, should complete the dividend mandate form printed on the reverse of the Application Form. Further dividend mandate forms can be obtained upon request from the Companies' registered office.

Your attention is again drawn to the Risk Factors set out in on pages 7 to 10 of this document.

DIRECTORS

The Boards of Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 comprise three Directors, two of whom are independent of the Investment Manager. Hargreave Hale AIM VCT1's annual report and accounts are made up to 30 September in each year and are normally sent to shareholders in December of each year. It is the current intention of the Directors that the first report to be sent to Investors after the close of the Offer will be the audited annual accounts for the year ending 30 September 2010.

It is intended that Hargreave Hale AIM VCT1 should have an unlimited life, but the Directors consider that it is desirable for shareholders to have the opportunity to review the future of the Company at appropriate intervals. Hargreave Hale AIM VCT1's articles of association require the Directors to put a proposal to shareholders concerning the continuation of that company at the annual general meeting in 2011 and, if passed, at every fifth anniversary thereafter.

Hargreave Hale AIM VCT2's annual report and accounts are made up to 28 February in each year and are normally sent to shareholders in June of each year. It is the current intention of the Directors that the first report to be sent to Investors after the close of the Offer will be the unaudited half yearly reports in respect of the six month period ending 31 August 2010.

It is intended that Hargreave Hale AIM VCT2 should have an unlimited life, but the Directors consider that it is desirable for shareholders to have the opportunity to review the future of the Company at appropriate intervals. Hargreave Hale AIM VCT2's articles of association require the Directors to put a proposal to shareholders concerning the continuation of the Company at the annual general meeting in 2013 and, if passed, at every fifth anniversary thereafter.

TAXATION

The Directors intend to continue conducting the affairs of the Companies so that they satisfy the conditions for approval as a venture capital trust laid down in section 274 of ITA. Whilst it is the intention of the Directors that Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 will be continue to be managed so as to qualify as VCTs, there can be no guarantee that they will continue to qualify or that such status will be maintained. A failure to meet the qualifying requirements could result in Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 losing the tax reliefs previously obtained, resulting in adverse tax consequences for investors, including a requirement to repay the 30 per cent. income tax relief.

Any potential investors in doubt as to the personal tax reliefs which are available as a result of investing in a venture capital trust, or the taxation consequences of the investment, disposal or holding of shares in a VCT, should consult an appropriately qualified professional adviser.

Further details of the tax position of venture capital trusts are set out in Part II of this document.

VCT STATUS AND MONITORING

Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 have retained PricewaterhouseCoopers to advise on tax matters generally and, in particular, the maintenance of VCT status. HMRC has given approval of Hargreave Hale AIM VCT1 as a VCT, and provisional approval of Hargreave Hale AIM VCT2 as a VCT. Final approval of Hargreave Hale AIM VCT2 as a VCT will be sought as soon as possible and, in any event, no later than the accounting period of that Company beginning three years after provisional approval. PricewaterhouseCoopers will assist the Investment Manager in establishing the status of investments as Qualifying Investments and monitoring progress towards achieving full VCT approval, but will report directly to the Board. In order to comply with VCT requirements, at least 70 per cent. by value of each Company's investments are required to be comprised of Qualifying Investments by the accounting period commencing no later than three years after the date of provisional approval by HMRC of each Company's status as a VCT.

THE OFFER

Amount to be Raised under the Offer

The Offer is conditional, *inter alia*, the Offer Agreement referred to in paragraphs 9.1.1 and 9.4.1 of Part V becoming unconditional and not being terminated in accordance with its terms.

The Offer is for up to £7,000,000 in Hargreave Hale AIM VCT1 and £3,000,000 in Hargreave Hale AIM VCT2 at an offer price to be determined by the Pricing Formula. Applicants' subscriptions will be divided as indicated by the applicant on the application form. The Offer is not underwritten.

In the event that applications are received for Ordinary Shares in excess of the Maximum Subscription under the Offer, the Directors reserve the right to exercise their discretion in the allocation of successful applications, although allocation will usually be on a first come first served basis.

Personal Investment Levels

The minimum subscription per investor is £3,000 in respect of the Offer. The maximum investment which can be made in order to qualify for the personal tax reliefs available from a venture capital trust is currently £200,000 per person per tax year. Applicants may make multiple applications under the Offer, provided that the investor guidelines for VCTs are followed. The Investor should take appropriate independent advice.

Allotment of Shares and Offer Price

The Offer will open at 10.00 am on 20 March 2010. The first allotment under the Offer in respect of the 2009/10 tax year is expected to be on or before 1 April 2010. Thereafter, the Directors reserve the right to allot Ordinary Shares at any time whilst the Offer remains open.

Investors are invited to subscribe an amount in pounds Sterling rather than apply for a particular number of Ordinary Shares. The price of the Ordinary Shares to be issued pursuant to the Offer will be calculated on the basis of the Pricing Formula. The Pricing Formula is:

The last Net Asset Value of an existing Ordinary Share (with an appropriate adjustment for any performance fee potentially payable based on the Net Asset Value at that date) as published by the relevant Company prior to the date of allotment divided by 0.95 to allow for issue costs of 5 per cent, calculated, in pence, to two decimal places.

As at 12 March 2010, the unaudited net asset value per Ordinary Share of Hargreave Hale AIM VCT1 was 64.37p, which would have resulted in an offer price of 67.76p per Ordinary Share (64.37p divided by 0.95). As at 12 March 2010, the unaudited net asset value per Ordinary Share of Hargreave Hale AIM VCT2 was 104.67p, which would have resulted in an offer price of 110.18p per Ordinary Share (104.67p divided by 0.95). Monies which are not sufficient to buy one Ordinary Share will not be returned to applicants but will be retained by the relevant Company and fractions of Ordinary Shares will not be issued. The Ordinary Shares to be issued pursuant to the Offer will rank pari passu with the existing Ordinary Shares of the relevant Company.

Dealings in new Ordinary Shares are expected to commence within five business days of such allotments. The closing date for the Offer in respect of the 2009/2010 tax year will be at 3.00 p.m. on 1 April 2010. If the Offer is not fully subscribed at that time, the Directors reserve the right to allow the Offer to remain open for at least part of the 2010/11 tax year but not beyond 18 March 2011. The Offer will not be withdrawn after dealings in the Ordinary Shares have commenced. The results of the Offer will be announced through a regulatory information service within 3 business days of the closing of the Offer.

Listing

Application will be made to the UK Listing Authority and the London Stock Exchange for the Ordinary Shares to be admitted to the Official List of the UK Listing Authority and to trading on the London Stock Exchange. All Ordinary Shares for each Company will be issued in registered form, will be transferable and will rank pari passu in all respects with each other. Application will be made for the Ordinary Shares issued pursuant to the Offer to be admitted to the CREST system and it is anticipated that such shareholders will be able to hold their Ordinary Shares in certificated or uncertificated form. In the case of applicants requesting share certificates, it is intended that definitive shares certificates will be despatched within 15 business days of allotment. Prior to despatch of definitive share certificates, transfers will be certified against the register. No temporary documents of title will be issued. In the case of applicants requesting Ordinary Shares in uncertificated form, it is expected that the Ordinary Shares will be issued in uncertificated form within

10 business days of allotment. The Registrars will instruct Euroclear to credit the appropriate electronic stock accounts of such persons with entitlements to Ordinary Shares within that period.

The Companies reserve the right to allot and issue new Ordinary Shares in certificated form. In normal circumstances, the right is only likely to be exercised in the event of any interruption, failure or breakdown of CREST (or of any part of CREST), or on the part of the facilities and systems operated by the Registrars in connection with CREST. This right may also be exercised if the correct details (such as Participant ID and Member Account ID details) are not provided as requested on the Application Form.

Category of Potential Investors

A typical investor for whom the Offer is designed is an individual (a retail investor) who is a UK income taxpayer over 18 years of age with an investment range of between £3,000 and £200,000 per tax year who considers the investment policy as detailed in Part I of this document to be attractive. Investment in a VCT may not be suitable for all investors and should be considered as a medium to long term investment. Before deciding whether to apply for Ordinary Shares under the terms of the Offer you are recommended to consult an independent adviser authorised under FSMA.

PART II

Taxation Considerations for Investors

The following is only a summary of the law concerning the tax position of individual investors in VCTs. Potential investors who are in any doubt about the taxation consequences of investing in a VCT are recommended to consult a professional adviser.

Tax reliefs

The tax reliefs set out below are available to individuals aged 18 or over who subscribe for Ordinary Shares under the Offer. Whilst there is no specific limit on the amount of an individual's acquisition of shares in a VCT, tax reliefs will only be given to the extent that the total of an individual's subscriptions or other acquisitions of shares in VCTs in any tax year do not exceed £200,000. Investors who intend to invest more than £200,000 in VCTs in any one tax year should seek professional advice.

(a) *Income tax*

(i) *Relief from income tax on investment*

Income tax relief at the rate of 30 per cent. will be available on subscriptions for Ordinary Shares up to a maximum of £200,000 in any tax year. This relief is limited to the amount which reduces the investor's income tax liability to nil.

The effect of this relief for an Investor subscribing £10,000 for Ordinary Shares is shown below:

	No VCT tax relief	30% income tax relief
Initial investment	£10,000	£10,000
30% income tax relief	-	(£3,000)
Effective investment cost	£10,000	£7,000

To obtain relief an investor must subscribe on his own behalf although the Ordinary Shares may subsequently be transferred to a nominee. Investments to be used as security for or financed by loans may not qualify for relief, depending on the circumstances.

(ii) *Dividend relief*

An investor who acquires in any tax year VCT shares having a value of up to £200,000 will not be liable to income tax on dividends paid by the VCT on those shares.

(iii) *Purchasers in the market*

An individual purchaser of existing VCT shares in the market will be entitled to claim dividend relief (as described in paragraph (ii) above) but not relief from income tax on investment (as described in paragraph (i) above).

(iv) Withdrawal of relief

Relief from income tax on a subscription for VCT shares will be withdrawn if the VCT shares are disposed of (other than between spouses) within five years of issue or if the VCT loses its approval within this period.

(b) Capital gains tax

(i) Relief from capital gains tax on the disposal of shares

A disposal by an investor of Ordinary Shares will give rise to neither a chargeable gain nor an allowable loss for the purposes of UK capital gains tax. The relief is limited to the disposal of VCT shares acquired within the limit of £200,000 for any tax year.

(ii) Purchasers in the market

An individual purchaser of Ordinary Shares in the market will be entitled to claim relief from capital gains tax on disposal (as described in paragraph (b)(i) above).

Obtaining tax reliefs

The Companies will provide to each investor a certificate which the investor may use to claim income tax relief, either by obtaining from HMRC an adjustment to his tax coding under the PAYE system or by waiting until the end of the tax year and using his tax return to claim relief.

Investors not resident in the UK

Investors not resident in the UK should seek professional advice as to the consequences of making an investment in a VCT as they may be subject to tax in other jurisdictions as well as in the UK.

Withholding taxation

No taxation will be withheld at source on any income arising from the Ordinary Shares and the Companies assume no responsibility for such withholding.

Withdrawal of approval

If a company which has been granted approval as a VCT subsequently fails to comply with the conditions for approval, approval as a VCT may be withdrawn or treated as never having been given. In these circumstances, relief from income tax on the initial investment is repayable unless loss of approval occurs more than five years after the issue of the relevant VCT shares. In addition, relief ceases to be available on any dividend paid in respect of profits or gains in any accounting period ending when VCT status has been lost and any gains on the VCT shares up to the date from which loss of VCT status is treated as taking effect will be exempt, but gains thereafter will be taxable.

PART III

Conditions to be met by Venture Capital Trusts

The Companies have to satisfy a number of tests to qualify as VCTs. A summary of these tests is set out below.

Qualification as a VCT

To qualify as a VCT, a company must be approved as such by HMRC. To obtain such approval it must:

- (a) not be a close company;
- (b) have each class of its ordinary share capital quoted on the London Stock Exchange;
- (c) derive its income wholly or mainly from shares or securities;
- (d) have at least 70 per cent. by value of its investments in shares or securities in Qualifying Investments, of which 30 per cent. by value must be in ordinary shares carrying no preferential rights to dividends, assets on a winding up, or redemption;
- (e) have at least 10 per cent. by value of its Qualifying Investments in any single company or group in ordinary shares which carry no preferential rights to dividends or assets on a winding-up and no rights to be redeemed;
- (f) not have more than 15 per cent. by value of its investments in a single company (other than a VCT or a company which would, if its shares were listed, qualify as a VCT); and
- (g) not retain more than 15 per cent. of its income derived from shares and securities in any accounting period

For funds raised after 5 April 2010 at least 70 per cent. by value of Qualifying Investments must be in “equity”. Such equity must be in the form of ordinary shares carrying no fixed rights to dividends, no preferential rights to assets on a winding up and no rights to be redeemed

Qualifying Investments

A Qualifying Investment consists of shares or securities first issued to the VCT (and held by it ever since) by a company satisfying certain conditions and for which not more than £1 million was subscribed by the VCT in any one tax year (nor more than £1 million in, broadly, any period of 6 months straddling two tax years). The conditions are detailed but include that the company must be a Qualifying Company (see page 51), have gross assets not exceeding £7 million immediately before and £8 million immediately after the investment, apply the money raised for the purposes of a Qualifying Trade (see page 51) within certain time periods and not be controlled by another company. In any twelve month period the company can receive no more than £2 million from VCT funds, Enterprise Investment Schemes and Corporate Venturing Schemes, raised after 5 April 2007. The company must have fewer than 50 full time (or equivalent) employees at the time of making the investment. In certain circumstances, an investment in a company by a

VCT can be split into part Qualifying Investment and part Non-Qualifying Investment.

Qualifying Companies

A Qualifying Company must be unquoted (for VCT purposes this includes companies whose shares are traded on the PLUS Market and AIM) and must carry on a Qualifying Trade. For this purpose certain activities are excluded (such as dealing in land or shares or providing financial services). The Qualifying Trade must either be carried on by, or be intended to be carried on by, the Qualifying Company or by a Relevant Qualifying Subsidiary (see below) at the time of the issue of shares or securities to the VCT (and at all times thereafter). The trade must be carried on wholly or mainly in the UK but the company need not be UK resident (however, for an investment made on or after 6 April 2010, a Qualifying Company only needs to have a permanent establishment in the UK). A company intending to carry on a Qualifying Trade must begin to trade within two years of the issue of shares or securities to the VCT and continue it thereafter.

A Qualifying Company may have no subsidiaries other than Qualifying Subsidiaries which must be more than 50 per cent. owned.

A Relevant Qualifying Subsidiary must be a 90 per cent. directly held subsidiary of the company invested in, its wholly owned subsidiary, or a wholly owned subsidiary of a 90 per cent. directly held subsidiary.

Approval as a VCT

A VCT must be approved at all times by HMRC. Approval has effect from the time specified in the approval.

A VCT cannot be approved unless the tests detailed above are met throughout the most recent complete accounting period of the VCT and HMRC is satisfied that they will be met in relation to the accounting period of the VCT which is current when the application is made. However, in order to facilitate the launch of a VCT, HMRC may approve a VCT notwithstanding that certain of the tests are not met at the time of application, provided HMRC is satisfied that the tests will be met within certain time limits. In particular, in the case of the test described at (d) under the heading “Qualification as a VCT” above, approval may be given if HMRC is satisfied that this will be met throughout an accounting period of the VCT beginning no more than three years after the date on which approval takes effect.

The Directors intend to conduct the affairs of the Companies so that they satisfy the conditions for approval as VCTs and that such approval will be maintained. HMRC has granted the Companies approval under section 274 ITA as VCTs. The Companies intend to comply with section 274 ITA and have retained PricewaterhouseCoopers LLP to advise them on VCT taxation matters.

Withdrawal of Approval

Approval of a VCT may be withdrawn by HMRC if the various tests set out above are not satisfied. Withdrawal of approval generally has effect from the time when notice is given to the VCT but, in relation to capital gains of the VCT

only, can be backdated to not earlier than the first day of the accounting period commencing immediately after the last accounting period of the VCT in which all of the tests were satisfied.

The above is only a summary of the conditions to be satisfied for a company to be treated as a VCT.

Unquoted investments will be valued on a cost basis in the first year and reviewed subsequently on the basis of the progression of the business. The Net Asset Value of the Companies will be communicated to Investors in Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 through a Regulatory News Service provider at the same frequency as the determinations.

In the event of any suspension, valuations are held at the suspended price and a view is taken with consideration to best market practice and information from advisers.

Should the determination of Net Asset Value differ from that set out above then this will be communicated to investors in Hargreave Hale AIM VCT1 and Hargreave Hale AIM VCT2 through a Regulatory News Service provider.

In the former case, verification of the identities of both the Applicant and the third party may be required. In the latter case, verification of the identity of any person on whose behalf the Applicant appears to be acting may be required.

If within a reasonable period of time following a request for verification of identity and in any case by no later than 3.00 p.m. on the relevant date of allotment the Receiving Agents have not received evidence satisfactory to them as aforesaid, the Companies with the agreement of the Receiving Agents may, at their absolute discretion, reject any such application in which event the remittance submitted in respect of that application will be returned to the Applicant (without prejudice to the rights of the Companies to undertake proceedings to recover any loss suffered by it as a result of the failure to produce satisfactory evidence of identity).

Where possible Applicants should make payment by their own cheque. If a third party cheque, bankers' draft or building society cheque is used, the Applicant should:

- (a) write his/her name and address on the back of the draft or cheque and, in the case of an individual, record his/her date of birth against his/her name; and
- (b) ask the bank or building society (if relevant) to endorse on the reverse of the draft or cheque the full name and account number of the person whose account is being debited and stamp such endorsement

The above information is provided by way of guidance to reduce the likelihood of difficulties, delays and potential rejection of an Application Form (but without limiting the Receiving Agents' right to require verification of identity as indicated above).

3. Sign and date the Application Form in Section 3. The Application Form may be signed by someone else on your behalf, if duly authorised by power of attorney to do so, but any power of attorney pursuant to which it is done (or a duly certified copy thereof) must be endorsed for inspection.

4. Agents who are entitled to receive commission should stamp and complete Section 4, giving their full name and address, telephone number and details of their authorisation under the Financial Services and Markets Act 2000. The right is reserved to withhold payment of any commission if the Receiving Agents are not, in their sole discretion, satisfied that the agent is so authorised.

Commission will be paid on one of the following bases:

- i) 3 per cent. initial commission of the amount invested by their client (and no trail commission); or
- ii) 2.25 per cent. of the amount invested by their client plus an annual trail. The trail commission will be paid annually on each anniversary of the date of allotment of the Ordinary Shares (provided that the financial intermediary continues to act for the client and the client continues to hold the Ordinary Shares) at the rate of 0.375 per cent. per annum of the amount invested by the client, subject to a maximum of 2.25 per cent.

Intermediaries must indicate on the Application Form the basis on which they wish to receive their commission.

5. If you wish to have your share and income tax relief certificates sent to someone other than yourself, please complete Section 5 accordingly. Copy certificates will not be sent to you.
